Dear Colleagues,

We’re pleased to confirm the date and extend an official invitation to you to attend the upcoming 2nd Annual Secure Community Network Security Leadership Summit planned for June 11-12, 2014 in New York City. The event will be held at the offices of The Jewish Federations of North America who is co-sponsoring the event. Participation in the summit is by invitation-only and limited to the first 50 registrants.

For the second time, SCN is bringing together a select group of U.S. security directors, facility managers, cyber-security experts, global security leaders, and homeland security and law enforcement partners that have been part of the SCN network over the past several years. This two-day event will be filled with special guest speakers, FOUO briefings and peer presentations along with other security programs and a special networking event.

The summit will provide an opportunity to hear from senior homeland security and law enforcement officials regarding the current homeland security threat environment and future outlook. In addition, the summit will provide a forum for the exchange of ideas, best practices, lessons learned and community security and cyber-security programs currently being implemented in participants’ respective Federations, facilities and communities as well as panel discussions by global Jewish security leaders.

Please see the enclosed preliminary summit brochure for full details including program agenda and accommodations information.

To RSVP for the summit and for additional information or questions concerning the event, please contact Mark Genatempo at 212.284.6940 or mgenatempo@scnus.org.

We hope you’ll be able to join us for this inaugural event and look forward to seeing you in June.

Regards,

Paul Goldenberg
National Director

About SCN

Secure Community Network (SCN) is the national homeland security initiative of The Jewish Federations of North America and the Conference of Presidents of Major American Jewish organizations.

SCN was established in 2004 as the first national non-profit organization exclusively dedicated to homeland security initiatives on behalf of the American Jewish community and has quickly become a central address for law enforcement, homeland security and community organizations as it relates to the safety and security of Jewish institutions and communities across the United States.

Through information sharing, security awareness, training and security consultation, SCN strives to empower individuals and organizations in establishing a culture of security awareness, preparedness and resiliency throughout our communities.
